

# Let us be your partner...

## And Support your Operation in Mexico

DIMSA is your cost-effective, turn-key solutions provider for your Project & Operations in Mexico

We're an experienced Mexican service provider, specialized in delivering turn-key, cost-competitive, planning and operational support solutions to companies establishing in Mexico. Our services are designed to be delivered efficiently as part of a package or individually to custom-fit our customers needs; Allowing them to focus on their core business, while we handle the back office, non-core activities unique to Mexico.

We achieve this by offering **Shelter & Administrative Outsourcing** Packages. We work with public and private companies of all sizes and Global presence; and with active customers from diverse industries such as Aerospace, Automotive, Software Development, Electronic Assembly, Consumer Products, among others.

We efficiently deliver our services with quality standards that certify our full compliance with federal and local law requirements. We employ well-trained professionals & use modern web-based software that allows real-time updates and fast access to your information. We are certain that our vast experience and great capacity to adapt is a major asset for any company considering having operations in Mexico.

### Why Outsourcing?

- We become your Cultural, Legislative, Operative & Regulatory bridge
- Cost Efficiency = Better Resource Allocation
- Access to Senior-level Staff
- Guaranteed Service Delivery
- Efficiency through Methodology
